

Oak Hammock Middle School

Hello! My name is Zac Rust and I am the Magnet Lead Teacher at Oak Hammock Middle School. Oak Hammock Middle School is a Title One school located within the Tice community in Fort Myers, Florida. Title One means that our school, amongst other Title One schools, has the highest concentrations of poverty based on the direct certification percentage of economically disadvantaged students enrolled in Lee County Schools. Due to this, we focus on providing students a diverse, integrated curriculum through innovative learning experiences.

One way that we have provided an innovative approach to our students is by establishing an arts program through our Magnet School Assistant Program Grant. This Grant allows us to provide materials and resources to our students within the classroom. However, this Grant can solely be used for equipment and supplies to be used within the classroom. Although we know the importance of community and student engagement, we are very limited when it comes to events for our students, volunteers, families, or staff. Therefore, we are reaching out to form community partnerships with those who might be willing to donate to our school. Donations can tangible items, monetary donations, or simply time and expertise. Besides the fulfillment of investing in your local community, there are other benefits for our community partners. One benefit is that your contribution is tax deductible. Also, you will receive recognition for your community involvement. We thank all our community partners in our quarterly newsletter, which is sent home to over 1,600 families. We have other sponsorship opportunities with perks that can be found on the additional provided flyer.

We look forward to working with you in the future. If you have any questions, please feel free to reach out to me directly.
